

Press Release, October 15, 2019

## **Jarvis Security Systems AB: Jarvis attends Web Summit 2019**

Web Summit is an annual technology conference held in Lisbon, Portugal, considered the largest tech event in the world. Founded in 2009, by Paddy Cosgrave, David Kelly, and Daire Hickey, Web Summit was originally held in Dublin, Ireland until 2016, when it moved permanently to Lisbon, Portugal. Web Summit has been described as the most important technology event in the world.

"I am pleased to announce that we have been accepted into Web Summit's ALPHA program for startups during the 2019 conference. A total of approx. 30.000 companies applied for the ALPHA program this year. 500 companies were selected, and we are one of them. We'll be in Lisbon, Portugal between November 4-7 2019. During the conference, we will, among other things, set up a booth where we are welcome to visit. We will also participate in the PITCH competition and network a lot", says Christopher Ramstedt, CEO of Jarvis Security Systems AB.
